- **Frameworks:** Node.js, Express.js, React, React Native, Next.js, Chi Router, Prisma, Redux, Zustand, RTK Query, Tailwind, Chakra
- **Cloud Services:** AWS, Digital Ocean
- **DevOps and CI/CD Tools:** Docker, Kubernetes, Github Actions
- **Version Control:** Git, GitHub, Gitlab
- **APIs and Web Services:** RESTful APIs, Server Actions (Next.js)
- **Operating Systems:** Linux, Windows, macOS

PROFESSIONAL EXPERIENCE

Founder & Lead Developer | [Yodev Ltd.](#)

Jan 2024 - Present

Company: [SmagXpress Ltd.](#)

Role: Created APIs to be consumed by mobile apps, [a dashboard for SmagXpress to enhance their operational efficiency and data management](#), [a landing page](#)

Technologies Used: Node.js, Express.js, React, MongoDB, PostgreSQL, AWS S3, Tailwind, Prisma, Vercel, Next.js, React, Railway

Key Achievements:

- Designed and implemented RESTful APIs to streamline backend operations.
- Developed an intuitive and user-friendly dashboard using React for real-time data visualization and management.
- Deployed services on AWS and Digital Ocean ensuring high availability and scalability.

Integrated security measures and authentication protocols to protect sensitive data.

Frontend Developer (Contract) | [Wadi Africa](#)

February 2023 - Present

- Designed and developed an interactive dashboard using React, enabling real-time data visualization and user interaction.
 - Implemented state management using Redux to maintain and manage the application's state effectively.
 - Integrated various charting libraries (e.g., Chart.js, D3.js) to display data insights and analytics.
-

PROJECTS | [LINK](#)

(Most recent projects)

Nigerian AI Dictionary | [LINK](#)

January 2024

Description: Developed an AI-powered dictionary for Nigerian slangs using Go and React Native for the frontend.

Technologies Used: Go, OpenAI API, React Native, PostgreSQL, Echo

Key Achievements:

- Created a user-friendly mobile app with React Native.
- Implemented backend with Go, integrating OpenAI for intelligent definitions.
- Utilized MongoDB for scalable data management.

Yodev Website | [LINK](#)

January 2024

Description: Designed and developed a visually appealing website for startup Yodev.org.

Technologies Used: Next.js

Key Achievements:

- Crafted a modern and user-friendly interface to showcase the startup's services and offerings.

Social Media App | [LINK](#)

June 2023 – September 2023

Description: Created a social media application using React Native for the frontend and TypeScript with Express for the backend

Technologies Used: React Native, TypeScript, Express, Node.js, MongoDB, JWT, Socket.io, Redux, Redux Toolkit, Prisma

Key Achievements:

- Designed and built a mobile-friendly interface using React Native, ensuring a seamless user experience across devices.
- Implemented secure backend with JWT authentication and real-time messaging.
- Managed MongoDB for efficient data storage.
